

## Project Plastic: Donating Fees to Save our Seas

### Our BIO International Convention Initiative

23 May 2022

As congresses start transitioning back face to face, we want to ensure we continue to be environmentally conscious and offset any pollution we produce.

Our 2022 JP Morgan initiative was to donate to [Water Aid](#) and [Freedom to Learn](#) for each meeting we hosted.

Through scheduling **73 meetings** with our existing, current and prospective clients, we were able to gift **5 families in Mali a handwashing facility** and give **10 children in the Himalayas and South Asia the freedom to learn**.

### Our BIO International Convention Initiative

This June, we will be **donating fees to save our seas!**

For each meeting that we host, we will donate a sum of money to a charity that makes a positive impact on climate change by way of offsetting the carbon footprint of our attendance at the event.

Our chosen charity is [Sea Life Trust](#), who work to help reduce the wave of plastic from entering our oceans through global projects and campaigns.

### Sea Life Trust

Sea Life Trust's vision is of a world where our seas are healthy, protected and full of diverse life. They champion the need for plastic-free oceans and the end to over-exploitation of marine life through various initiatives, including "Reduce Plastic Litter". With at least 14 million tons of plastic ending up in the ocean each year, it's important to support these initiatives. Not only so we can enjoy our beaches, but also to protect all the wildlife in the ocean.

### Meet us at the BIO International Convention

You can help support our cause by scheduling a meeting with one of our highly experienced industry professionals either face-to-face in San Diego or virtually.

[Flic Gabbay BSc PFPM FRCP FMedSci](#), Founding & Senior Partner will be present in San Diego from 13-16 June and would be delighted to meet with you. Alternatively, you can schedule a virtual meeting with [Paul Branthwaite BSc MIOD](#), Senior Partner & Client Liaison.

Contact us via the [One-on-One Partnering platform](#) or email [ashton.brooke-thorne@transcrip-partners.com](mailto:ashton.brooke-thorne@transcrip-partners.com).
